

Quick Guide To Using Flexxbuy's Credit Select Plus Consumer Financing Program With Your Customers

Step 1: Complete your sale with your prospective customer. As an option, you can set your price in a way that eliminates your merchant costs associated with consumer financing. For example, if your cash price is \$3,000, you may want to make your financed price at 5% above cash price ($\$3,000 / .95 = \$3,157$). This would cover your cost and time, but that is entirely up to you. Most merchants decide that the nominal costs associated with financing are comparable to accepting a credit card and are worth absorbing in order to make a sale that would otherwise not happen.

You can also sell payments. For example, the consumer can pay \$3,000 or pay as low as \$101 per month. You can utilize our loan calculator located at <http://flexxbuy.com/financing-loan-calculator/>. Interest rates on our loans start at 3.99%, but 9.99% to 32% are typical. The term offers are usually 36 to 60 months. Keep in mind that independent of Flexxbuy, some lenders will charge the borrower a closing cost fee of between 1% and 6% that will come directly out of the proceeds.

Step 2: Direct the consumer to the custom loan page url that you received in your welcome email. It would have been something like, <http://flexxbuy.com/aces-furniture/>. Remember, there is no risk in the consumer completing this application. We only do soft credit pulls so there is no impact on the credit score just to view offers.

Quick Guide To Using Flexxbuy's Credit Select Plus Consumer Financing Program With Your Customers (continued)

Step 5 (continued): When you complete the Invoice Creator form, the prepared invoice will be emailed to you and your customer for e-signature. It will also be sent to Flexxbuy support so we can document the final invoice amount and terms for billing purposes after the loan funds and your business is paid. Note: if you don't want the invoice sent to the customer, simply enter your email address in both places (Merchant box and Customer box).

Step 6: Flexxbuy support will work with your customer and inform you as to how the loan is progressing. Upon funding, you will be notified so you can make arrangements with the customer to complete the sale as per your invoice.

Step 7: Approximately 10 days after the loan has been funded, Flexxbuy will ACH the fee from your business checking account, based on the invoice amount or funding amount, whichever is lower. If there is a delay in completing the sale, for whatever reason, inform our support staff so we can act accordingly.
