

FLEXXBUY SUB-PRIME LEASE PURCHASE FOR AUTO REPAIR AND CONSUMER GOODS

We are pleased to present a unique consumer lending program for auto repair and consumer goods that will approve borrowers with very low and no credit scores.

This program is particularly unique because **it can be used on ANY auto repair.** Other lease purchase programs can only be used on tires and rims.

There is only a post funding discount fee applied to funded leases.

This program utilizes a dynamic pricing system with rates starting at 11 percent. That means that more credit worthy consumers are rewarded with better terms but those that have poor credit or no history, can still get approved.

Here are the highlights:

- No recourse or Charge-back, no contractual obligation
- No equipment to purchase
- Only first payment due at time of sale (other similar programs require 25 to 35 percent down)
- No support documentation required (NO PAYSTUBS, NO BANK STATEMENTS)
- Early payoff savings options for customers
- Simple online application process with instant approval
- Funding within 3-4 business days
- Approvals up to \$5000
- Up to 24 Month Payback Terms on amounts over \$1,000 for lower payments

A stack of several black tires with tread patterns, arranged in a slightly overlapping manner, filling the bottom third of the page.
